Scrum.org Professional Agile Leadership - Essentials

About this course

Becoming a nimble organization is a profound transformation that requires senior leaders, middle managers and Agile team members to change the way they organize their work, manage that work and measure the results. Agile teams cannot do this on their own; they need help from the entire organization.

The changes for all involved are profound — but so are the results when everyone's goals and ways of working are aligned. Professional Agile Leadership™ Essentials (PALE-E) is a modular workshop, adaptable up to two days in length, based on the needs of your organization.

Who should attend

PAL-E is designed for managers and leaders who want to improve their organization's ability to respond to changes in the market, competitive pressures or opportunities for innovation.

Subject areas

This workshop will equip leaders and managers to help their organizations change by providing participants with:

- An overview of what Agile is, and why organizations need it to survive and thrive in a changing world
- Information about how Agile works and how to quantify its benefits from a business perspective
- The means to identify the potential opportunities and impacts of Agile in terms of business value
- The ability to compare and contrast Agile practices with alternative business practices
- An understanding of how to help form and support Agile teams using an empirical approach
- Ways to overcome common challenges that Agile teams face, remove impediments and become a servant-leader
- An understanding of how to measure and guide Agile product delivery

Course topics

- Why Agile matters
- Challenges of an Agile leader
- Leaders grow Agility
- Developing people
- Measuring Agility

Course schedule

Visit **insight.com/events** to find an upcoming PAL-E course in a city near you.

Trainers

Insight is recognized as a member of the Scrum.org Professional Training Network. This means we align with the Scrum values, have Scrum.org trainers who teach a qualifying number of Scrum.org Professional Scrum classes, and are committed to improving the profession of software delivery in part by providing Scrum.org training

Assessment and certification

Upon course completion, attendees have the opportunity to take the PAL I assessment online. The industry-recognized PAL I certification requires a minimum passing score on this rigorous assessment.
