Scrum.org Professional Scrum Master Course

About this course

The Professional Scrum Master™ (PSM) course covers the Scrum basics, including the principles and theory underpinning the mechanics, rules and roles of the Scrum framework. Based on these foundational insights, attendees learn how to use Scrum to optimize value, productivity and the total cost of ownership of software products.

Advanced thinking tools are introduced to support servant-leadership and behavioral shifts, working with people and teams, coaching and facilitation, and addressing the organization. Students learn through interactive instruction and team-based exercises and are challenged to think in terms of the Scrum principles to better understand what to do when returning to the workplace.

Who should attend

This two-day course is targeted to Scrum Masters, but the lessons are applicable to anyone in a role that supports a software development team's efficiency, effectiveness and continual improvement. If you're a leader in the successful use and/or rollout of Scrum in a project or enterprise, this course is likely to be a good fit.

Prerequisites

Attendees will benefit the most from this course if they:

- Have studied the Scrum Guide (required)
- Have taken the Scrum Open (free online assessment)
- Understand the basics of project management
- Understand requirements and requirements decomposition
- Have been on or closely involved with a project that builds or enhances a product
- Have read one of the Scrum books
- Want to know more about how Scrum works, how to use it, and how to implement it in an organization

Course schedule

Visit **insight.com/events** to find an upcoming PSM course in a city near you.

Trainers

Insight is recognized as a member of the Scrum.org Professional Training Network. This means we align with the Scrum value, have Scrum.org trainers who teach a qualifying number of Scrum.org Professional Scrum classes, and are committed to improving the profession of software delivery in part by providing Scrum.org training.

Assessment and certification

Upon course completion, attendees have the opportunity to take an online assessment of their skills and earn their Professional Scrum Master I (PSM I) and/or Professional Scrum Master II (PSM II) certification.
